

## Tips and Tricks for ArcGIS Pro

Marianne Cardwell - Polis Center and Irv Goldblatt - GIO

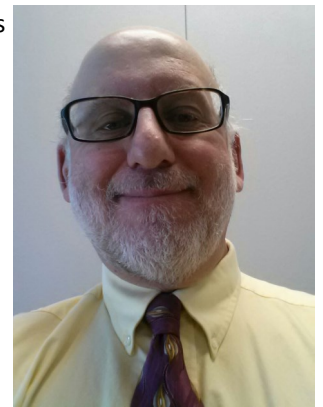

9:30 - 10:20 am

### Bios:

**Marianne Cardwell** is a GIS Project Coordinator at the Polis Center at IUPUI focusing on environmental and disaster geoinformatics. She has 20 years of experience in the GIS field, having been an analyst, programmer, and manager. She holds a Bachelor's degree in Geography from Michigan State University and a Master's degree in Geographic & Cartographic Sciences from George Mason University.

**Irv Goldblatt**, long time GIS User in State Government is Technology Manager in IOT/GIO Office. His duties include teaching the Desktop GIS classes and managing software and server environments.

### Abstract:

Whether you're a novice ArcGIS Pro user, daily user, or just contemplating making the switch, come learn tips & tricks from the presenters and your colleagues. This session will start with the presenters giving an overview of tips & tricks they've learned along the way and will end with others in the audience sharing what they have learned as well.
